PRESIDENT'S MESSAGE

We, Bangladesh Association of Pharmaceutical Industries (Bangladesh Aushad Shilpa Samity) are delighted to inform you about the forthcoming international exhibition on South Asian Pharmaceutical industry – ASIA PHARMA EXPO- 2011 to be held in Dhaka from 24 to 26 February 2011.

The South Asian Pharmaceutical market is currently experiencing unprecedented growth and as a result the ASIA PHARMA EXPO provides unlimited opportunity to all related business and trade professionals. In all our previous Asia Pharma Expo events, the participants from neighboring countries and other parts of the world expressed their deep sense of satisfaction for excellent arrangement of the show, the wide participation from potential buyers and wonderful arrangement of the gorgeous venue. As a result this event has become a must to attend international gathering which none can afford to miss.

At Asia Pharma Expo 2011, Bangladesh; the exhibiting companies from more than 26 countries across the world are expected to participate, these include the repeat as well as the first time exhibitors from the local and international organizations. We have been receiving extremely encouraging and positive acknowledgements by the past participants based on the overwhelming success in the previous Asia Pharma Expo shows with a steady and reliable growth in trade and business at large, not only in South Asia but also in other parts of the world.

In Bangladesh the pharmaceutical sector is one of the most developed hi-tech sectors and it is contributing to the country's economy significantly. One can not overlook the performance of the Bangladesh pharmaceutical industry due to its consistent growth, developments and investments in domestic as well as exports trade. Bangladesh is the largest producer of formulation products in LDCs and exporting to more than 72 countries and has 18% share in the international business, with exports to Asia, Africa, Europe and Latin America. Many leading companies are making fresh investments in order to enter in to the developed and regulatory markets. A number of companies have already received GMP certification from several regulated markets. We envisage huge investment and subsequent development in pharmaceutical industry in Bangladesh in a very short span of time.

Asia Pharma Expo 2011 (APE-2011) will be accommodating 400 booths to the exhibitors. Major OEM suppliers from Asia, Europe and the USA are in the process of confirming their participation. This exhibition has been acclaimed by many as the most refreshingly lucrative platform for extending and expanding their local regional and Global market business networking fetching attractive business deals.

We had the honor to welcome senior delegates from Pakistan, India, Sri Lanka, Nepal, Thailand, China, etc. during the past shows of Asia Pharma Expo, and we expect that more delegates from more countries would participate in the year 2011.

I, warmly invite you all to come and participate in this mega event at APE2011 Dhaka, Bangladesh. Meanwhile, we are also inviting the member of the International Federation of Pharmaceutical Manufacturers Association (IFPMA) in turn to send the invitations to all relevant and concerned parties across the globe. To boost the efforts, we from Bangladesh would also send out the invitations to our near and dear neighboring countries for their definite participation. We logically apprehend that more than 10,000 trade visitors would be visiting the exhibition.

I, take this opportunity to invite all concerned involved with pharmaceutical and related business and trade to take advantage of this exhibition as it is being organized at our own doorstep. You have the best event, and we assure you that, the modern machineries with the state-of-the-art technology and ingenious expertise in services would be exhibited.

On behalf of all the members of the executive committee, I would like to inform you that since such a mega event of this magnitude is happening in our country, your participation at Asia Pharma Expo 2011 would play vital role to increase your business relationship with the trade professionals from the world over.

Further if any clarification & information is needed, please feel free to communicate with us, or visit the event website: www.asiapharma.org

We are eagerly looking forward to seeing you at the Asia Pharma Expo 2011.

Thanking you
Yours sincerely

Salman F Rahman

SOUTH ASIA ONE OF THE RAPIDLY GROWING PHARMA REGION

- One of the fastest growing pharma economy of the world
- The rapid growth rate to meet the Demand & Supply statistics of India, Bangladesh, Nepal, Pakistan, Bhutan, Myanmar, Thailand, and Indonesia has attracted the global attention
- Over-all growth rate of the South Asian Pharma Industry : 14%
- No. of Formulators: More than 24,000
- With the highest exports of the formulation, Bangladesh offers all the advantages for its strategic location in the South Asian pharma region Bangladesh remains on top with 97% of the total pharma production being exported to over 62 countries
- Based on WTO meet / Doha declaration, Bangladesh will also be able to produce drugs which are still under Patent protection until year 2016

www.asiapharma.org

Pharmaceutical Sector of Bangladesh

In Bangladesh, the pharmaceutical sector is one of the fastest growing sectors. In 2008 the total size of the pharma market in Bangladesh was estimated to be USD 700 million and is growing at a steady rate. The pharmaceutical sector is the second highest contributor to the National Ex-Checker and the largest white collar labour intensive employment sector of the country. There are 245 registered pharmaceutical manufacturing companies in Bangladesh. The local pharmaceutical manufacturers cater to about 97% of the internal demand.

Today, Bangladesh Pharmaceutical Industry is successfully exporting APIs and a wide range of products covering all major therapeutic classes and dosage forms to 71 countries. Beside regular forms like; Tablets, Capsules & Syrups, Bangladesh is also exporting high-tech specialized products like HFA Inhalers, CFC Inhalers, Suppositories, Nasal Sprays, Injectables, IV Infusions, etc. are also being exported from Bangladesh, and have been well accepted by the Medical Practitioners, Chemists, Patients and the Regulatory Bodies of all the importing nations. The packaging and the presentation of the products of Bangladesh are comparable to any international standard and have been accepted by them.

The Pharma Industry of Bangladesh is now on the verge of entering highly regulated overseas markets like USA and Europe. In this connection, several pharmaceutical manufacturers have already made huge investments in their new state of art manufacturing facilities. A number of companies have already obtained or in the process of obtaining UKMHRA, EU, TGA, AUSTRALIA and GCC certifications.

The future of pharmaceutical exports from Bangladesh is bright. After the inclusion of the Doha declaration in WTO / TRIPS Agreement, each and every country belonging to the LDC Category has the option not to opt for pharmaceutical product patent until 2016, which means they can now legally reverse-engineer patented products and sell in their markets as well as can export to other LDCs. This creates a huge export opportunities for Bangladesh, because, among all the 50 LDCs, Bangladesh is the only country which had a strong base for the pharma manufacturing. Besides direct export operations, there is also a huge opportunity for the Bangladeshi companies to go for the Contract Manufacturing and compulsory licensing. The good news is, the leading pharmaceutical exporters of Bangladesh have already started availing these opportunities.

APE 2009 DHAKA, BANGLADESH EXHIBITION REPORT

Out of 347 exhibitors, 97% wanted to participate at APE 2011

Local Exhibitors (37%)
International Exhibitors (63%)

87% of 8245 Attendees had rated APE 2009 Best Show of Asian Market

Production & Manufacturing (36%)
Purchase & Vendor Development (24%)
Technical Engineering (19%)
Sales, Marketing, R&D (11%)
CEO & MD (8%)
Govt., Embassies & Academicians (2%)

What Brings These Exhibitors Back?

Survey has show 88.43% enquiries were converted into final business deals

Manufacturing (74%)
Agents / Associates / Distributors (19%)
General Market Orientation (7%)

APE 2011

Confirm your appointment with the Industry Stalwarts

- The comprehensive show features the complete range of all the segments required for pharmaceutical industry
- Join the global leaders of pharma industry to display your products / services
- A three-day focused event attracts the highly potential quality visitors representing more than 25 countries
- An excellent opportunity to meet the decision makers (Top Management, Regulatory Authorities, Consultants, Research / Production / Procurement / Maintenance Professionals, Embassies, etc.)

APE 2011 Business Dating

- Pre scheduled meeting sessions dedicated for ■ Manufacturers & Clients
■ Marketing Tie-up ■ Joint Ventures ■ Contract Services
■ Vendor Developments

APE 2011 Venue

- Prime location near the National Parliament House & Business Area
- 15 km from the Zia International Airport
- 3,50,000 sq. ft. well equipped Exhibition Floor Area
- 3,00,000 sq. ft. Parking Area
- Six well furnished Seminar Halls

Participation Rate

- Shell scheme USD : 275 per sq.mt.
- Space only USD : 240 per sq.mt.

APE 2011 PROFILE

EXHIBITORS

- Pharmaceutical Processing Plants & Equipments
- Pharma Packaging Machinery & Materials
- API, Bulk Drugs, Additives, Intermediates
- Analytical Laboratory Supplies (Instruments, Glassware, Lab. Reagents - Chemicals)
- Environment Control Equipment & Services
- Utility, Utility Services & Maintenance
- R & D, Biotechnology, CROs
- Contractors - Turnkey
- Trade Associations / Trade Publications
- Formulations
- Contract Manufacturing
